Portland, OR 97223

Dear Ajay,

I have the great pleasure of congratulating you for showing your excellence in the area of energy research at the Intel Northwest Science Expo for the second year running. Similar to last year the quality of your work impressed our evaluation team and showed the dedication and diligence to rise above the other entrants.

In particular the topic, *“Optimizing the Microbial Fuel Cell-Microbial Electrolysis Cell Coupled System for Sustainable Hydrogen Gas Production, Electricity Generation, and Improved Wastewater Treatment”*, spoke to our core mission of promoting innovation in energy efficiency and renewable/efficient generation. We look forward to leaning the details of this exciting work and how it can impact the built environment during your presentation at our annual awards banquet.

Please accept this award and gift card. I encourage you to continue to push yourself and always look for opportunities to advance your experience and knowledge.

In closing, I urge you to follow the advice of Manchester United soccer manager and legend Sir Alex Ferguson who said, “If you are going to have a dream, make it a big one.”

Congratulations,

A handwritten signature in black ink, appearing to read 'D. Harris', written over a horizontal line.

Daniel Harris, P.E.
President of AEE-CRC
